## IN PRINT ON DISC™

### U.S. EDITION

*“ Our comparison of BIP Plus and B&T Link found BIP Plus’ screen cleaner with friendly searching by ISBN or title, and quite expedient searching by author, publisher name, subject, grade, language, publication year or combinations. ”*

**- REFERENCE AND RESEARCH BOOK NEWS**

With its unmatched speed, flexibility and convenience, **Books In Print ON DISC** puts the world of in-print and forthcoming books at your fingertips. The monthly updated disc includes full bibliographic information on over 2.5 million titles from more than 90,000 publishers. To help with your acquisition, Bowker's CDs fully integrate with most POS Systems and full contact information on over 90,000 publishers and distributors is also included.

The database is searchable by any word in the database as well as all standard LC and Sears subject headings. For maximum search capability, you can combine any number of search categories - from author, title, subject and publisher to ISBN, price, publication date and grade level.

The benefits never end with **Books In Print ON DISC**. This remarkable tool is a necessity for library acquisitions, reference, and collection development, as well as for bookstore ordering, niche development and customer service.

**Available for Windows**
